

Declaration

Date: 29 Nov. 2021

To whom it may concern,

We, **Safecare Biothech (Hangzhou) Co., Ltd.**, having our office at F1.2 Blog.2, No.18 Haishu Road, Hangzhou 311121 China, as a manufacturer of COVID-19 Antigen Rapid Test Kit(Swab) and COVID-19 Antigen Rapid Test Kit(Saliva), hereby declare that our COVID-19 Antigen Rapid Test Kit(Swab) and COVID-19 Antigen Rapid Test Kit(Saliva) remain effective for the detection of SARS-CoV-2 antigen even in the emergence of newly discovered variant **Omicron** found in South Africa.

Since the recognition site of the raw materials used in our antigen test is the nucleocapsid protein (nucleoprotein or protein N) antigens, which is different from the mutation sites, we would like to declare that our products are theoretically able to detect this new variant in South Africa.

Lastly, We Safecare will strictly implement our quality management system and strive to provide the best products to the customers. We will also inform you officially if there is any update information of our COVID-19 Antigen Rapid Test Kit(Swab) and COVID-19 Antigen Rapid Test Kit(Saliva).

Yours sincerely,

SAFECARE BIOTECH (HANGZHOU) CO., LTD.
